Anti Set-Off Powder Silux 20

Category: Auxiliary Materials
Availability: **estimated time of delivery 30.11.2026**
code: **380**

Price: 0,00€

Quantity: 1 kg, 3,5 kg

Short description

BöttcherPro Silux 20 is a premium spray powder designed for use with conventional printing inks and inline coating with water-based varnishes.

This high-quality powder is crafted from vegetable starch, ensuring it is both waterproof and environmentally friendly.
Key Features:
• Uniform Grain Size: Provides consistent application with excellent flow properties, preventing clogging in spray nozzles.
• Smooth Finish: Ensures a smooth finish on printed surfaces, maintaining the gloss and appearance of the final product.
• Low Build-Up: Minimizes accumulation on blankets, making it ideal for high-volume production environments.
• Humidity Resistant: Performs reliably even in humid conditions, without causing scrubbing on printed surfaces.
• Versatile Use: Suitable for all spray powder application systems and works well on paper or carton substrates up to 300 g/m².
• Health and Safety: Gluten-free, fine dust reduced, and approved by BG ETEM for safe usage in printing environments.
Applications: BöttcherPro Silux 20 is an excellent choice for printers seeking trouble-free processing with low consumption, ensuring efficiency and high-quality results in their printing operations. Ideal for use in a variety of printing and coating processes, especially where precision and reliability are critical.
