Flexible Packaging Polypropylene BOPP

Category: Flexible Packaging
Availability: **estimated time of delivery 30.11.2026**

Price: 0,00€

Short description

POLYPROPYLENE – BOPP (bio-oriented polypropylene) is considered an ideal choice for flexible packaging as it ensures food safety and quality.

Due to its excellent barrier properties, high transparency and flexibility, it is often used in the food industry for packaging. BOPP film is non-toxic, odorless and does not release harmful chemicals or substances. BOPP film is resistant to moisture, grease and oil. It is used for packaging bread, biscuits, pasta, dried fruit, chocolate, candies, snacks, smoked and processed meat.
